The Lodi Police Foundation... The citizens of Lodi have always shown strong support for their community and also their Police Department. However, with budgetary constraints, the Lodi Police Department (LPD) is challenged with maintaining their high level of service with fewer resources and reduced funding.

Many private persons and local businesses have expressed a willingness to donate money or other items to the LPD. The Lodi Police Foundation (LPF) provides conduit where donations can be accepted and subsequently utilized by the LPD in the form of grants.

The LPF was formed to help bridge the gap between budget and reality. Certain types of equipment, education, and community programs are made possible through our fund-raising efforts.

In addition, the LPF also provides funding to the Lodi Area Crime Stoppers, an organization that pays awards for crime tips.

From the Chief...

Proceeds from the tournament will be used to help construct an outdoor range and driver training facility for our department. This facility, located on city property, will provide our officers with state of the art firearms and emergency vehicle operations training. We will also be able to support the law enforcement efforts of each of the police agencies in San Joaquin County.

The Lodi Police Department has a consistent and proven record of protecting our community and their property. With your financial support this will allow the department to continue our tradition of high quality policing knowing that the community stands behind us to maintain the services you expect and deserve.
